USB-C Multiport adaptor for MacBook Pro

Unlock the Pro

The USB-C multiport adaptor for MacBook Pro expands the capabilities of your Apple MacBook Pro.

Ultimate versatility

Featuring a total of seven ports that can all be used simultaneously without issue - HDMI, Thunderbolt 3, USB-C, 2 X USB 3.0, and Micro SD and SD card readers, the adaptor delivers the ultimate versatility for power users.

Charge your MacBook Pro at full speed

The adaptor's passthrough charging capabilities support up to 100W power delivery to charge both 13" (61W) and 15" (87W) MacBook Pro at full speed via the Thunderbolt 3 port.

Crystal clear 4K resolution

Equipped with both HDMI and Thunderbolt 3 ports, the adaptor offers an array of display output options. Use the HDMI port to output crystal clear, blur-free video to your external display at up to 4K @ 30Hz, or the Thunderbolt 3 port that supports up to 5K @ 60Hz or two 4K @ 60Hz displays.

Data transfer speeds up to 40Gbps

The adaptor takes full advantage of the incredible data transfer rates offered by Thunderbolt3, achieving speeds up to 40Gbps. The USB 3.0 ports provide data speeds up to 5Gbps, and Micro SD and SD card readers offer UHS-I 104MB/s.

More ports, more convenience

This exceptionally compact, elegant adaptor truly is the perfect companion for your MacBook Pro, delivering more ports and more convenience to enhance your productivity.
