Description

Introducing E-Flip, the practical flip standing desk that effortlessly combines versatility with simplicity. With its spacious 1600 x 800mm tabletop, E-Flip not only provides ample workspace but also doubles as a whiteboard—just flip it over for a creative break or presentation.

Designed for ease of use, E-Flip allows for a smooth flip by just one person, making adjustments quick and easy. Need to move your workspace around? No problem. E-Flip features mobile castors for hassle-free mobility.

Forget about tangled cords. E-Flip comes with a built-in lithium battery and a convenient USB charging port, freeing you from the constraints of external power sources.

Safety is key, and E-Flip ensures a stable and secure standing desk experience with its anti-collision function. Work confidently, knowing that your desk is designed with your safety in mind

Upgrade your workspace with E-Flip—a straightforward, mobile, and efficient standing desk that adapts to your needs. Enjoy a workspace that works with you, making your daily tasks a breeze. Welcome to a more practical way of working and teaching.
