ESB15B

Versatile Soundbar Bracket with Non-Slip Base Holder

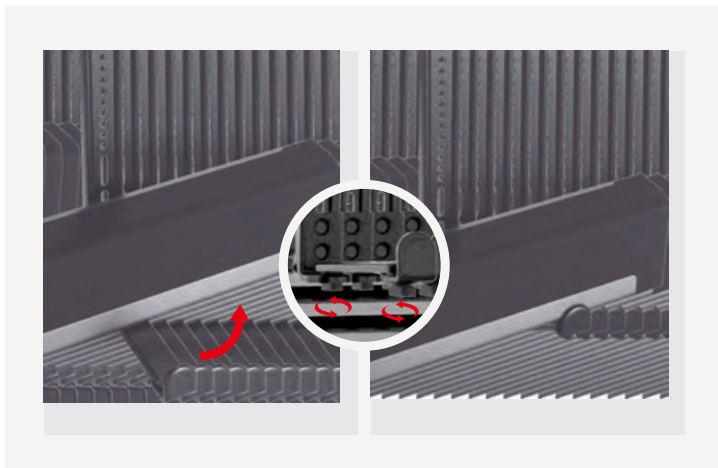

This Versatile TV Soundbar Bracket can work with soundbars, center channel speaker or MTM speaker of various length and sizes using convenient adjustable holders. With the versatility to mount above or below the TV, listening can be optimized for whatever size room or furniture layout.

ESB15B

Versatile Soundbar Bracket with Non-Slip Base Holder

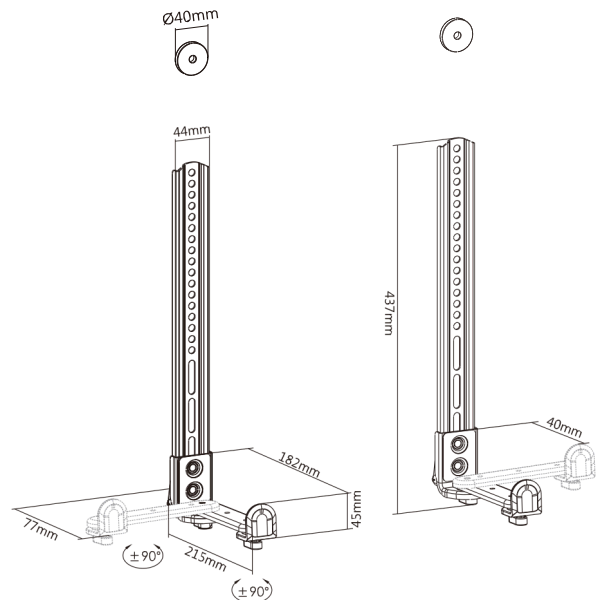

Convenient Placement and VESA attachment allows the soundbar to be mounted above or below the TV with TV mount.

Adjustable Holders adapt to soundbar of 1.6"-7.2" depth providing a strong grip and ensuring the soundbar does not tip over when the bracket is tilted 10°.

Adjustable Height for nearly seamless look between the TV and soundbar.
